CLIMB UP Program Comment

First off, the members of the Climb up Program (caps) were very professional, hard working and kind. I found that they were very helpful with students of all ages. They went above and beyond the call of duty. They would help students with their ties, tie shoes, breakup fights, mentor and would also just give the students a kind smile and a listening ear. I found caps extremely beneficial!

I drop my grandchildren off at school every morning and I feel more confident and at ease when I see the guys in the green vest directing the kids into school. They come to the car and make sure the children get into school safely. I don't see as many fights. I commend and applaud the workers in this program. The job is a risk and yet a commitment to keeping the children safe.

I am very pleased with the job these gentlemen do, they have inspired more parents to bring their presence to the school grounds which also helps slow down the violence in and around the schools. They assist parents with the children loading and unloading from cars and they stand and cross children on the corners where a crossing guard is not present. They are very beneficial to the neighborhood and this community.

As a parent, I believe that "The Climb Up Program" is one of the best things about Shoop Elementary School. It's nice to know that someone is looking out for our children's safety.

The Climb up Program here at Shoop Academy has been a tremendous asset. Their presence has made a positive difference in our students behavior. There have been a few occasions where the Climb up team has helped mentor one of my upset students. Upon the child's return, the child has come back to the room apologetic and ready to participate in the class. I would just like to give a personal Thank You to the whole team, and I certainly look forward to seeing them in the building next year.

This is a great program. I believe seeing more men in the school has a positive influence on the students. I believe it also helps to curb many incidents (ie-fights) in and around the school. Great program

The program proved to be quite beneficial. I witnessed these gentlemen acting as mentors and positive role models for students.

I think that the students were less inclined to exhibit mischievous behavior when they saw the men present.

They were also helpful in opening doors and carrying materials for teachers.

I personally would not like to see the program come to an end.

CLIMB UP Program Comment

Since the implementation of the Climb up program, I have seen an increase in student's positive behavior. The presence of the men encourages students to rethink their inappropriate behavior. Students as well as teachers feel safer and the positive male interaction has been a welcomed change to the school's climate.

I have enjoyed the support of the Climb-UP team. Their presences has added a sense of security. The climb-up team has also helped in mentoring some of my boys. I have seen a change in some of their behaviors for the positive. Finally, they went above and beyond for our World's Fair Day. The team came together to provide an authentic experience for the students who were studying ~~the~~ Mexico. I really reccomend the Climb-UP program. They are a group of professionals that care.
